Mount Pleasant Directory

TouchPoint is the name of the church management system that Mount Pleasant uses to keep track of our church's people and activities.

There are two user interfaces to this software. A web based browser <https://mpchurchpa.tpsdb.com/> and a mobile app.

The App allows users to see and edit their basic information, including photos, and to view only the information of others in our congregation. The App also allows users to specify what parts of their information is visible to other users.

To use the App you will need a record in Touchpoint that has a valid email address. If you are not sure you have a record in TouchPoint, contact the church office at info@mpchurchpa.org and they will let you know if you have a record or they can set one up for you.

Next go to the App store on your phone and search for the TouchPoint App. Choose TouchPoint Mobile Free by TouchPoint Software Inc. and download it to your phone.

Open the App. It will ask for a server, enter mpchurchpa and click "Accept".

The first item on the next screen will be "Receive sign code via email", click on this.

On the next screen enter your email address and click on "Send Code". The next screen will ask you to verify the code. Get and enter the code from your email (You may have to check your spam or junk mail folder) and click on "Verify Code".

Next you will be asked to set a 4 digit PIN. Enter your PIN. Next verify the PIN

The next screen will ask you to touch the finger point sensor to sign in or you can skip this step.

You will now be on the home screen for your record. If you don't have a picture or don't like the one displayed, click on the picture and select "New Picture". You can add a picture from a file photo or take one from your camera. (Hint)

Don't take a selfie, they usually look pretty bad. Instead have someone else use your phone to take the picture. Also don't use photos of your pet, house, family etc. This photo is to let others in the church know who you are.

Scroll down and click on "Profile". View your record and select "Edit" to correct any missing or incorrect information.

You can always click on the little house icon at the top of the screen to return to the home screen.

Next click on "People Search". You can enter any info you may have including first or last name or only a couple of letters for each. If you leave all the fields blank you will see all the records in the database. Click on "Search".

Select the record you chose and you will get the basic info for that person.

If they have an address, phone # or email, you will see a little icon along the right side.

If you click on the icon you can see their address on google maps, or dial their phone, or open your email client to send them an email.

Individuals can choose what information will be available by returning to the home screen and choosing "Involvements". Choose any of your involvements. You should at least have "Worship Attendance".

A list of all those in the involvement will appear. Click on the gear icon in the top right corner. There are two choices: "My Global Settings" or "Settings for this directory".

You can change any setting by clicking on it. A dark circle means that others can see that particular data and a light circle prevents others from seeing it. Remember this info is only viewable by those in our congregation that have an account in TouchPoint. Also be sure to scroll down to see all the fields. And then click on save at the bottom of the screen.

For help or info on this app or the TouchPoint browser program contact Holly Garland (412)853-3591 or the church office
